Hey guys, lets get this set up for them.

Thanks

We are having a real problem with the new irrigation system in the medians at the Westchester Town Center. I think it is simply a lack of coordination between the City (or its contractor) and the Business Improvement District's contractor. The result is lack of water for our plant material, broken pipes, unnecessary call outs, and frustration. Can we meet with all of your affected supervisors and our BID representatives to resolve this ASAP?

Thanks Hector. (I understand you may not be the appropriate supervisor that we meet with but you are the only person other than Greg Monfette and Luis Torres that I've worked with on the maintenance side. I'm counting on your guidance to direct us properly.)
